

Enviromental policy

The Environmental Policy of Iberia Airport Services is the reference document for its environment strategy development. Our goals are: to minimize the impact of the Handling activity in the external surroundings, to improve the efficiency of the process and to reduce the use of natural resources to obtain a sustainable development.

- 1** *In a global and local level, to ensure the compliance of the legislation and other volunteer requirements concerned with environment. To adopt internal regulations or international standards in a complementary way, according to the principle of prevention.*
- 2** *To implement the Environmental Management System through efficient and effective models to prevent ecological risks that minimize the potential impact of the activities and infrastructure on the environment.*
- 3** *To apply principles of continuous environmental improvement in the development, products and services by the systematic evaluation of the environmental performance with the purpose to establish the global and local goals.*
- 4** *To reduce the impact in environment by incorporating sustainable solutions in the purchase of the vehicles and the eco practices in consumption of resources.*
- 5** *To promote a low carbon economy through the internal reduction of the greenhouse gas emissions and the development of products and services that contribute to the reduction of gas emissions.*
- 6** *To promote the innovation of the services that contribute to the sustainable development of the society and in the same way to produce alternatives to improve the preservation of the ecosystems.*
- 7** *Educate and train employees, to forward the importance to act respectfully with the environment.*
- 8** *To promote the good practices of environmental management in the distribution chain and with the providers.*
- 9** *To cooperate with other organisations in the solution search which contribute to achieve the environmental challenge or our time.*
- 10** *To communicate regularly and transparently our environmental achievement to all stakeholders, handle their issues and concerns in this area.*

These principles constitute the framework in which the objectives and goals of Iberia airport Services of its Environmental Management System are established.
